

H2 – Handover: the entrepreneur ignites, the division it leaves behind sustains

Mean over 250 seeds (fewer per simplex point; 1280 sets for the Sobol design). Small world $N = 1000$, 'base', $\alpha_D = 0.7$, $\rho_D = 0.25$, $\varepsilon = 0.5$, withdrawal at $t_{\text{off}} = 150$.

c Residual $\Pi(399)$ on the alarm simplex ($s = 0.60$)

d What decides persistence: the split, not the intensity
